A Scientific Horse.

An English gentleman once shared the box seat with the driver of a stagecoach in Yorkshire, and, being a lover of horses, he talked with the coachman about his team, admiring one horse in particular.

"Ah," said the coachman, "but that 'oss ain't as good as he looks. He's a scientific 'oss."

"A scientific horse?" exclaimed the tourist. "What on earth do you mean by that?"

"I means," replied Jehu, "a 'oss as thinks he knows a deal more nor he does."

NO TRACES FOUND
OF MAIL ROBBERSResidence of Dr. Worley at
Clovis Is Destroyed
by Fire.

Clovis, N. M., May 22.—Burglars who broke open the baggage room here and robbed the United States mail are still at large. The baggage room was entered between 1 and 2 o'clock and three mail pouches removed, all containing first-class mail. About 7 o'clock in the morning Charles Roach was on his way to his work at the Santa Fe shops when he discovered two of the mail pouches near an old outhouse at the west end of the town. He brought the pouches to town and reported the find to the sheriff's department. The pouches recovered had been opened by cutting the leather straps at the top of the pouch, and all the letter mail had been removed, and the paper mail from the yet missing pouch had been transferred to the two recovered, and all the letter and registered mail from all three pouches taken. The officers trailed an unknown party west from here 12 miles, but when overtaken he was found to be a tramp with only a few old clothes in a sack.

The residence of Dr. Preston Worley burned to the ground at a little past midnight. The doctor had gone with his wife to the hospital two days ago, and no one occupied the residence at the time of the fire. There had been no fire in the house for two days, and how it came to burn is a mystery.

The doctor had just removed his cabinet and surgical instruments to the residence, and it is reported that he lost everything. The doctor being out of the city it could not be ascertained whether he had any insurance on the property.

The fire was turned in by a Santa Fe switch engine, and the fire had gained such headway before the department reached it that it was impossible to save either the building or any of its contents.

The Canon, the saloon keeper who was seriously wounded in a fight with Bill Ogg, a restaurant keeper, is reported resting well this morning, and his attending physicians think he will recover unless some complication sets up.

GUAYMAS MINES HAVE
NOT CLOSED DOWNMuch Garden Truck Planted;
First Car of Water-
melons Shipped.

Guaymas, Mexico, May 22.—It has been reported in some of the papers that all of the mines in the San Xavier district are closed down. However, the Goiteras, Thos. C. Hardy, consulting engineer and manager, is operating to its full capacity, as is also the Wyman Mining company's mine "Las Animas."

W. C. Laughlin, manager of the San Antonio Copper company, is still operating; also the Mina Mexico, W. E. Pomeroy, manager. The La Dura Mining & Milling company, H. C. Falsgrove, manager, reports that they have no intention of closing down.

There are 1,500 acres of beans planted in the Yaqui valley. The average yield is five to 10 bushels per acre. From Los Mochis the first car of cantaloupes went out to the states on Tuesday morning.

Z. O. Stocker, of Ontagosa, is in Guaymas to secure about 100 Chinese laborers to handle the picking and packing of his cantaloupe crop and expects to ship a car on Wednesday.
